Dømi um framda myndlan av sjóvarfallinum

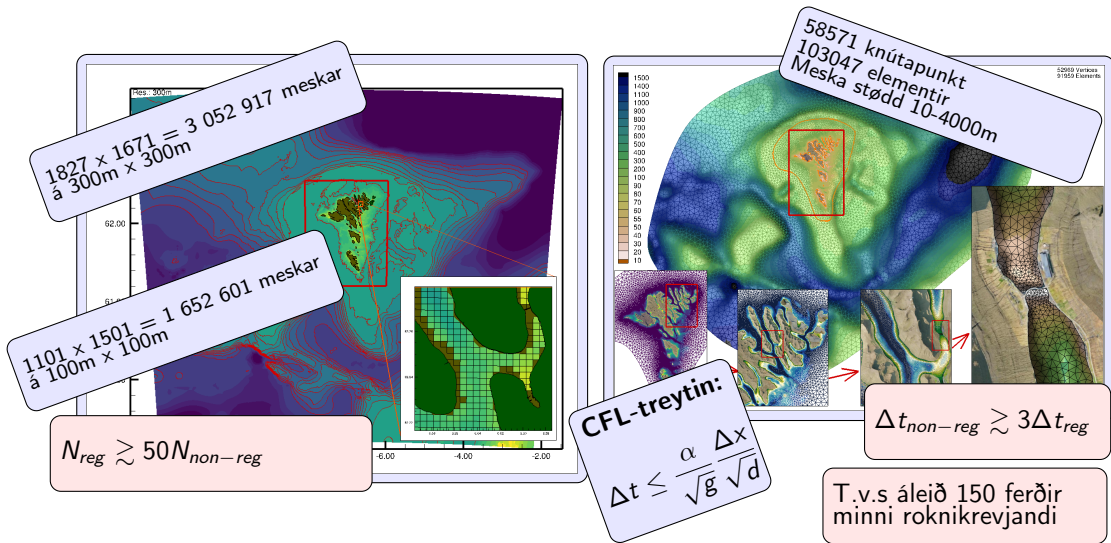

Simonsen et al.

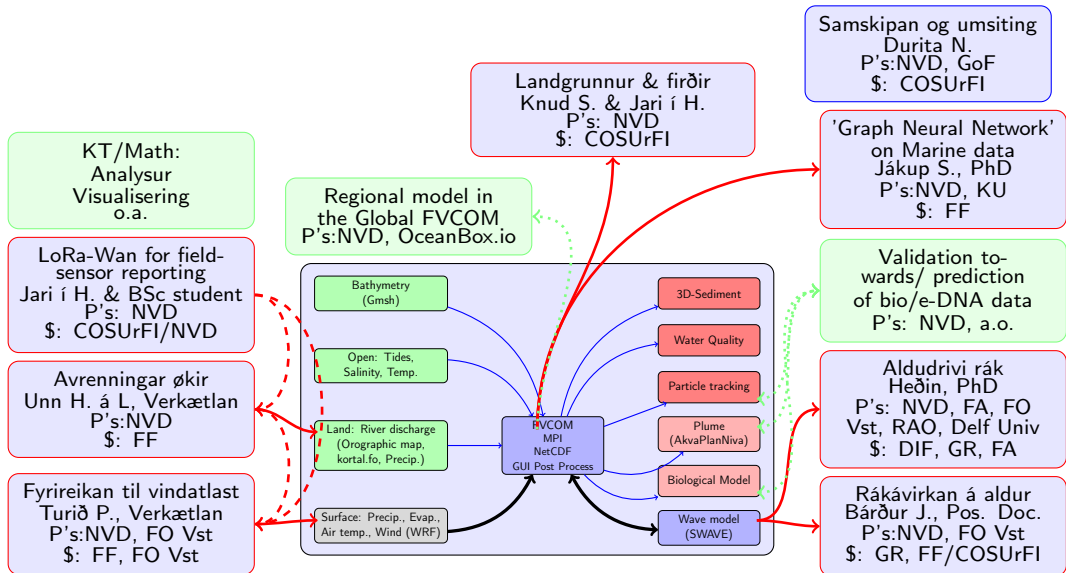

Depil fyrri Havmyndlan á Setrinum

Reguligt \leftrightarrow ikki-reguligt rokninet fyri Føroyaleiðirnar

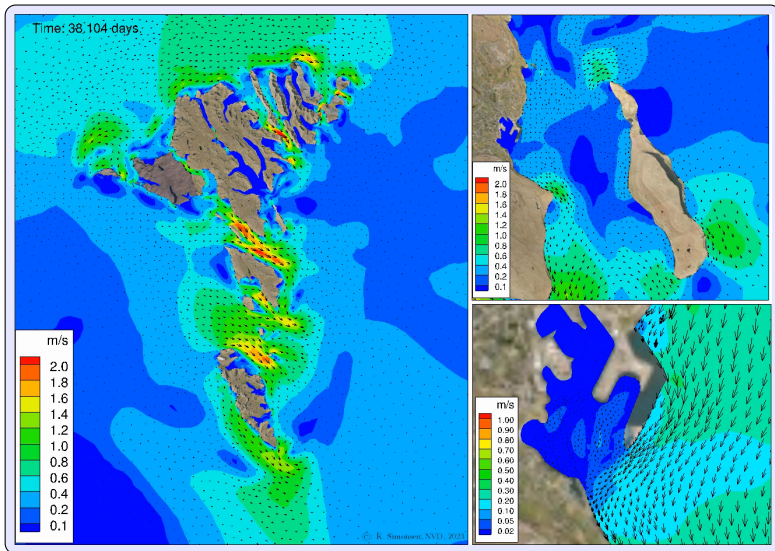

COSUrFI verkætlanir - nú vit byrja

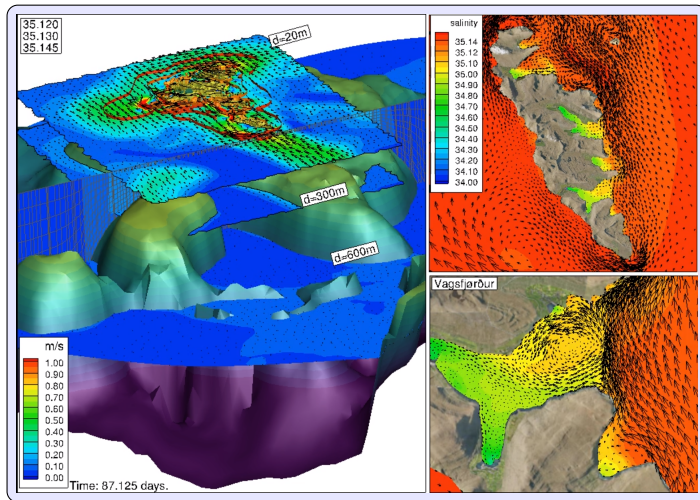

COSUrFI visjón - (fyribils)

- COSUrFI skal vera eitt sterkt havmyndlaumhvørvi. Føroyskir og altjóða granskarar skulu saman uppbyggja neyva vitan um rák og aldu í umhvørvinum kring Føroyar, bæði millum oyggjarnar og úti á opnum havi.
- COSUrFI skal skapa sambond millum havmyndlagranskarar og aðrar áhugabólkar. Við hesum sambondum skapast virðismikil úrslit við týðandi samfelagsnyttu.
- COSUrFI skal gera amboð at stuðla undir burðardyggja menning av Føroyum.

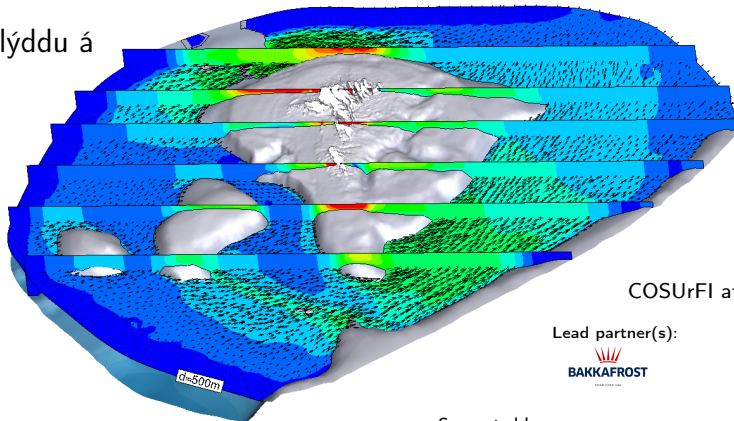

Sjóvarfalsrák við nýggja myndlinum

Dømi frá Landgrunna myndlinum

Takk fyri at tit lýddu á

The permission to use

granted by the MEDM research group in SMAST-University of Massachusetts Dartmouth, USA, is very much appreciated.
